

REGISTER YOUR

PRIVATE

SURVEILLANCE CAMERAS

The Willingboro Police Department is asking that our township residents and business owners join together with us in a program which allows you to voluntarily register your privately owned surveillance camera with the police department.

By registering your surveillance system, officers conducting investigations in your neighborhood, will immediately be able to identify who in the vicinity owns surveillance cameras. Cameras will often record valuable information that may assist our officers in identifying evidence that may lead to an apprehension and subsequent prosecution of those who have committed crimes in our community.

REGISTRATION FORMS CAN BE OBTAINED
via The **Willingboro Police Department**
website, **The Willingboro Township**
website, or in person at the
WILLINGBORO POLICE DEPARTMENT
CRIME PREVENTION OFFICE

The residents and businesses in the township have truly been an asset in assisting the police department in our efforts to make Willingboro the safest community in New Jersey. With your willingness to cooperate in this program, together we can make a difference. This program is free of charge and the information will be used for police purposes only.
