This bill reflects a BPU approved change, effective February 1, 2019, in the Supply portion of your electric bill resulting from an increase in transmission charges if you receive PSEG's basic Generation Service (BGS). PSEG's BGS is provided to customers who do not have a Third Party Supplier. As a result of these changes, a typical residential customer who purchases supply from PSEG, and uses 740 kilowatt-hours in a summer month and 6,900 kilowatt-hours annually, will see an increase of \$7.68 or approximately 0.62% (The increase for non-residential customers will vary by rate type.). Tariff information may also be found by visiting pseg.com.

Beware of payment scams. If you receive a phone call from someone demanding immediate bill payment with a prepaid card, it is a scam. PSEG never requires payment with a prepaid card. When in doubt, hang-up and call the number listed on your bill: 1-800-436-7734. For more information, visit pseg.com/scamalert.

**** PAST DUE REMINDER ****
 1-800-357-2262 (Mon-Fri, 7:30 AM - 8:00 PM)

Your bill for service is unpaid and past due. Payment of \$3,026.75 must be received by 2/7/2019 or your account may be removed from the PSE&G collective billing process. As a result, service on individual accounts may be discontinued. If service is discontinued, a reconnection fee of \$45.00 will be charged for each service that is shut off. Service may not be restored on the same day. Delinquent bills result in a poor PSE&G Credit Rating.

This bill reflects a BPU approved change to the Delivery portion of your bill, effective January 1, 2019, resulting from an increase in the Gas Base Rates due to Gas System Modernization Program investments. Due to this change, a typical residential heating customer who purchases supply from PSE&G, and uses 172 therms per winter month and 1,040 therms annually, will see an annual increase of \$12.80 or approximately 1.45%. (The increase for business customers will vary by rate type.). Tariff information may also be found by visiting pseg.com.

Your bill for service is unpaid and past due. Payment of \$598.61 must be received by 2/11/2019 or your account may be removed from the PSE&G collective billing process. As a result, service on individual accounts may be discontinued. If service is discontinued, a reconnection fee of \$45.00 will be charged for each service that is shut off. Service may not be restored on the same day. Delinquent bills result in a poor PSE&G Credit Rating.

Your bill for service is unpaid and past due. Payment of \$428.44 must be received by 2/6/2019 or your account may be removed from the PSE&G collective billing process. As a result, service on individual accounts may be discontinued. If service is discontinued, a reconnection fee of \$45.00 will be charged for each service that is shut off. Service may not be restored on the same day. Delinquent bills result in a poor PSE&G Credit Rating.

This bill reflects a BPU approved change to the Delivery portion of your bill, effective January 1, 2019, resulting from an increase in the Gas Base Rates due to Gas System Modernization Program investments. Due to this change, a typical residential heating customer who purchases supply from PSE&G, and uses 172 therms per winter month and 1,040 therms annually, will see an annual increase of \$12.80 or approximately 1.45%. (The increase for business customers will vary by rate type.). Tariff information may also be found by visiting pseg.com.

Your net metering

As a net metering customer, you'll receive a bill every month based on your "net consumption" of electricity, measured in kilowatt-hours (kWh). The net consumption is the difference between the amount of electricity drawn from PSE&G when your generating system is not meeting your energy needs and the amount you delivered when you were producing in excess to your energy needs.
